1	Abinash Singla S/o Sham Lal Singla	210500006755	6369/2023	1. The candidate appeared for personal hearing before the Board on 08/05/2023 regarding his non selection on account of irrelevant experience. 2. The candidate applied for the post of Computer Digital Forensics Officer. 3. Earlier the candidate was rejected as per experience as lecturer in the Department of Computer Science and Engineering at Bhai Gurdas Institute of Engineering and Technology from 01/08/2007 to 03/09/2021. 4. As per the advertisement, the candidate is required to have a minimum of 12 years of "relevant work experience". Since the post for which the candidate has applied is "Computer/Digital Forensics Officer", the "relevant work experience" here refers to work experience in the field of "Computer/Digital Forensics". 5. Digital forensics is a branch of forensic science that focuses on identifying, acquiring, processing, analyzing, and reporting on data stored electronically. The main goal of digital forensics is to extract data from the electronic evidence (mobile/computer etc), process it into actionable intelligence and present the findings for prosecution. 6. The candidate's experience as Lecturer in the Department of Computer Science and Engineering is not relevant to the field of Computer / Digital forensics, where the principal job of the incumbent would be to extract data from mobile/computer devices and analyze the same which is a niche expert field requiring skills and expertise not acquired or practiced by the candidate in his experience as lecturer in a college.

Notes:

1. Comments regarding teaching experience:
   a. The teaching experience in diploma courses or higher in technical colleges / universities (Govt. or private) like Professor, Lecturer, Lab instructor is being considered as relevant experience in the IT field due to the following reason:
      i. Based on representations received, a wider meaning of relevant experience in the IT field is being taken, since in diploma or higher courses, the individual is expected to be well experienced with advanced subjects of computer science and IT fields like operating systems, databases, languages used in software development, computer algorithms, data structures, computer graphics, artificial intelligence, computer architecture, etc., in addition to the probable IT lab experience.
   b. The teaching / lab instructor experience in school (upto +2 level) cannot be considered as relevant experience in the IT field since the curriculum taught in school is of very basic nature and does not qualify for relevant experience in the IT field.
   c. The teaching experience in institutes (except govt. ITIs), coaching centers, etc. cannot be considered as relevant experience in the IT field since the subjects taught and the level of teaching involved is not enough to be considered as relevant experience in the IT field.
2. Comments regarding partial relevant experience: Earlier relevant experience was considered even if partial or minor responsibilities included relevant experience. However, on review and based on the representations received, if the relevant experience was partial or major responsibilities were not relevant for the experience required, the candidate's experience has been rejected.
3. It may be noted that IT and electronics fields are completely different. Experience in the Electronics field cannot be considered as relevant experience in the IT field.
4. The remarks have been given based only on the experience documents provided by the recruiting agency. Authentication of experience related documents is to be checked by the recruiting agency.
5. The decisions taken in the Board meetings have been referred to while writing the remarks.
6. Verification of employment is to be done by the recruiting agency using Form 16, bank statements, etc. as per the decision taken in the board meeting dated 11/01/2023. The candidates must not be issued a joining letter until this verification is completed in all respects by the recruiting agency.
